What does boudoir photography mean to you?

It is like we are looking inside the small private women's world

Why did you choose to pursue a career as a boudoir model?

What got you started in boudoir?

I have a beautiful body, love lingerie and I'm brave enough to show myself to the world

What kind of creative process is there behind boudoir photography?

The main thing here is to know how to look sexy, beautiful and natural at the same time

How do you communicate with a team, you've just met to make them comfortable?

I have a very big experience and I have a good team, we feel absolutely relaxed with each other

How do you educate yourself to take better photos?

Watching a lot of pics, make the references before the photoshoot and work just with the professionals

What photography style do u like most?

I like sensual and colorful pics

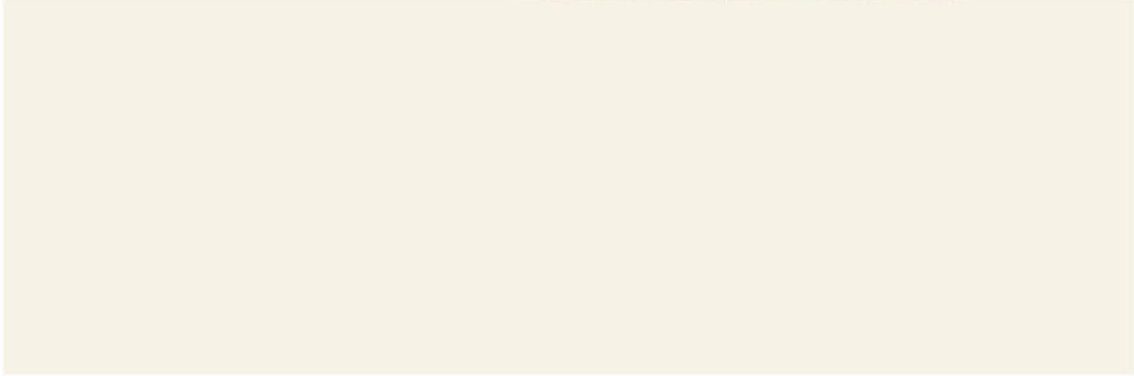

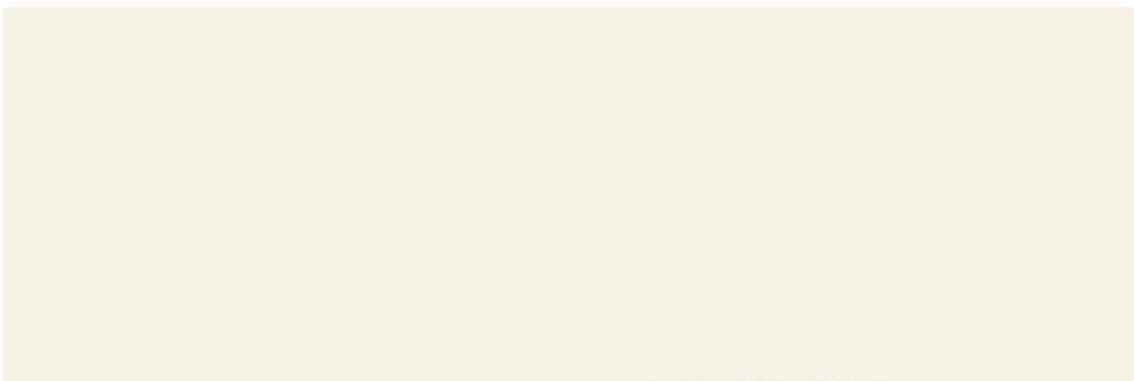

Just for fun, if you could have a shooting in any location, what would it be?

I would like to have a shooting on a yacht. Not that special location may be, but I didn't have it yet

Do you have any other profession or anything you are passionate about?

I'm a travel girl, sex coach and blogger
